

## *The Cambridge University Energy Network*

# ***NUCLEAR FUSION – might it make hydrogen before electricity?***

The Cambridge University Energy Network is launching its inaugural lecture series in sustainable energy.

We are delighted to offer you the chance to become engaged with the technical and policy issues surrounding nuclear fusion and its viability as a real potential energy source for our future – but just how could such an energy source be implemented?

**Speaker:** *Dr Bill Nuttall*

**When:** *Thursday 31<sup>st</sup> January, 7pm*

**Where:** *Wolfson Lecture Theatre,  
Dept. of Chemistry*
