

SUSTAINABLE ENERGY – without the hot air

CUEN is delighted to present the first of our series of sustainable energy lectures for this year.

In light of his new book, Prof. David Mackay provides insight into the true scale at which sustainable energy technologies would have to be deployed to meet our energy demands.

Refreshments will be served!

Speaker: *Prof. David Mackay*

When: *Tuesday 28th October, 7pm*

Where: *Dept. of Pharmacology*
